

CITROËN C3 Aircross

Every **service interval** includes a complete vehicle **health check** which includes the following:

- 01.** Fluid Check: check washer, coolant and brake fluids for correct level and leaks.
- 02.** Check operations of all interior and exterior lights including the operation of front and rear wipers.
- 03.** Check for any oil leakage from underneath the vehicle for example gearbox, engine and power steering.
- 04.** Visual check of the front and rear shock absorbers including the component of the suspension arm and stabilizer bar bushing.
- 05.** Check drive shaft boot for any damage, grease leakage, tear or deterioration.
- 06.** Check for coolant leakage from the cooling system.
- 07.** A complete check on the charging system and battery voltage.
- 08.** Inspection of the front and rear tyres and advise if a wheel alignment needs to be carried out.
- 09.** Road test with the customer to identify any technical fault. (noise, misfiring, vehicle handling etc)
- 10.** Advise for any malfunction light on the cluster. (engine management light, ABS, Airbag and Power steering)
